

MAHDEN SALEH

Kansas City, Missouri | (913) 735-7689 | msmahden@gmail.com | smahden.github.io

PROFESSIONAL SUMMARY

Computer Science graduate and full-stack developer who designs, builds, and deploys responsive web applications end-to-end, from database schema to user interface. Skilled across JavaScript, Python, Java, C++, PHP, and SQL, with hands-on React, RESTful APIs, relational databases, and content-based filtering. Shipped a full-stack adaptive learning platform (thesis) and an internal employee-management system (internship), and brings team-leadership experience and an Agile, user-centered approach.

EDUCATION

Bachelor of Science in Computer Science

University of the East | Manila, Philippines

Relevant Coursework: Data Structures, Automata Theory, Artificial Intelligence, Data Analytics, Software Engineering

TECHNICAL SKILLS

Languages: JavaScript, Python, R, Java, C, C++, C#, PHP, SQL, HTML5, CSS3

Frontend: React, Vite, Sass, Responsive Web Design, Single-Page Applications (SPA), Component-Based UI, UI/UX Prototyping (Figma)

Backend & APIs: RESTful APIs, CRUD Operations, JSON, Server-Side Scripting, Form Handling & Data Validation

Databases: MySQL, Relational Database Design, Schema Design, Data Modeling, SQL Query Optimization

Cloud, Tools & Version Control: Microsoft Azure, Git, GitHub, GitHub Pages, VS Code, IntelliJ IDEA, Eclipse

CS Foundations: Data Structures & Algorithms, Object-Oriented Programming (OOP), MVC, Software Design Patterns, Artificial Intelligence, Data Analytics

Methodologies & Concepts: Agile, Software Development Lifecycle (SDLC), Team Collaboration, Content-Based Filtering, Recommendation Systems

EXPERIENCE

Fashion Team Associate

Walmart | Kansas City, Missouri | August 2025 - Present

- Support merchandising, inventory organization, and customer service in a fast-paced, high-volume retail environment.

Supervisor

QuikMart | April 2023 - May 2025

- Supervised daily store operations and a team of associates, including scheduling, task delegation, and floor coverage.
- Managed customer service, cash handling, and inventory while enforcing store policies and loss-prevention standards.

Software Engineer Intern

ToonCity | May 2024 - July 2024

- Developed an internal employee-management web application using PHP, Sass, and MySQL to centralize records and streamline operations.
- Implemented RESTful CRUD operations (Create, Read, Update, Delete) with server-side validation and form handling for employee records.
- Designed and optimized relational database schemas, queries, and table relationships for efficient, reliable data retrieval.
- Integrated front-end and back-end components for dynamic content rendering and a responsive user experience.

PROJECTS

IDA: Adaptive Grade 4 Mathematics Software

Thesis Project | React (Vite), SQL, Figma

- Designed and developed a full-stack adaptive learning platform teaching Order of Operations (PEMDAS) to Grade 4 students.
- Engineered personalized learning paths using content-based filtering algorithms to assess performance and target weak areas.
- Created UI/UX wireframes and interactive prototypes in Figma prior to development.
- Deployed as a live web application enabling students to track progress and identify areas for improvement.

CERTIFICATIONS

- Google Project Management Foundations
- Certiport IT Specialist (ITS): HTML & CSS
- Microsoft Azure Fundamentals
